

ROAD REPORT 2017

IT'S BEEN AN INTENSE SUMMER FOR JAN AND ME, WORKING ON PLANNED COTTAGE REPAIRS AND IMPROVEMENTS, HOSTING KIDS, GRAND KIDS, AND GREAT GRAND KIDS "FUN", AND HELPING JAN'S BROTHER AND SISTER-IN-LAW MOVE INTO AN ASSISTED LIVING FACILITY IN CONNECTICUT "NOT SO MUCH FUN".

STEVE WIGGIN'S SCHEDULE IS ALWAYS ON OVERLOAD. THIS WEEK HE FINALLY SUBMITTED A BILL FOR LAST SUMMER'S WORK, WHICH WAS:

1. SWEEPING THE ROADS WITH THEIR RIDE ON MECHANICAL SWEEPER
2. APPLYING ASPHALT GRINDINGS TO COVER POT HOLES AND ROUGH AREAS ON WOOD WAY
3. REPAIRING AND PAVING THE INTERSECTION OF WOOD WAY AND LEDGE ROAD (30feet X 30feet)
4. DIGGING A TRENCH (2feet wide X 130feet long), LINING IT WITH FABRIC, AND FILLING IT WITH RIPRAP (2inch to 3inch stones) ON CLIFF ROAD.

THIS ALLOWS PROPER DRAINAGE

ON MONDAY, LUCY LIVINGSTON AND I TOURED THE RIDGE AND IDENTIFIED A LIST OF ROAD PROJECTS. ON WEDNESDAY, ONE OF STEVE'S WORKERS AND I RODE THE SAME PATH. WE ARE STILL WAITING FOR STEVE'S NUMBERS!

THAT LIST INCLUDES:

MECHANICAL CUT BACK (at least 2feet) ON BOTH SIDES OF ALL ROADS

MECHANICAL SWEEPING ON ALL ROADS

TRIM HIGHER LIMBS OVERHANGING THE EDGES OF THE ROADS THAT

MECHANICAL CUT BACK MIGHT MISS

CLEAN AROUND THE ENDS OF 7 CULVERTS & TOTALLY CLEAR 4 OTHERS

DREDGE THE SWALE (for 20 yards) ON SPRING ROAD FROM HEATH ROAD

EXCAVATE AN AREA (40ft. X 2ft.) AND INSTALL "RIPRAP" STONE AT THE

NORTH CORNER OF EAST LANE

SINCE NOTHING ON THIS LIST INCLUDES MACADAM, ASPHALT, BLACK TOP, WE EXPECT TO STAY UNDER THE BUDGET NOT KNOWING STEVE'S NUMBERS.

DO YOU HAVE ANY QUESTIONS?
